## OUR PROJECTS

- Our flagship product is the USACO Guide <https://usaco.guide/>
  - a free collection of high quality educational resources available for anyone to use.
- Free Resources
  - We provide free resources, classes, club materials, workshops, and contests to increase participation in competitive programming contests.

# WHY SPONSOR US?

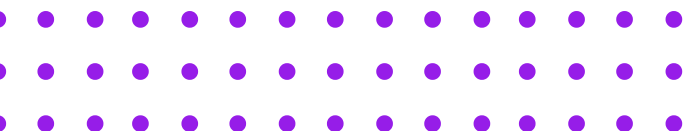

By sponsoring us, you take part in bringing competitive programming resources to a generation of programmers. Your monetary support will help us provide even more high-quality resources to promote competitive programming, including classes and workshops. You'll be able to reach and make an impact on thousands of young programmers around the world.
